UTIA AgResearch
T.J. Whatley Distinguished Young Scientist Award

The award will be presented to an early career faculty member who has between three and seven years of professional experience beyond their terminal degree with a minimum of two years of service as a member of the agricultural faculty of the University of Tennessee. In addition, the faculty member must hold the rank of assistant professor (or within one year of promotion) and have an AgResearch appointment. This award recognizes demonstrated commitment and meritorious achievement in establishing an independent and impactful research program during the early stage of their academic career. Emphasis will be on the impact that a faculty member's efforts in research and technology development have had on UT AgResearch stakeholders and/or the scientific community at large. Only his/her accomplishments since the terminal degree, not to exceed five years, will be considered as a basis for this award. Both tenure and nontenure track faculty are eligible for the award.

Nominations are due the second Friday of May each year.

The nomination package should include the following:

- A two-page letter of nomination from the department head or chair of the department Awards Committee.
- One to three letters from nominee's UT colleagues who are in a position to elaborate on the nominee's research/creative activity.
- One to three letters from experts in the nominee's field at other institutions who are knowledgeable about the nominee's work. Provide a short paragraph summarizing the qualifications of external references.
- Current CV of the candidate (no more than 20 pages) with a one-page summary of key research accomplishments.
- Short bio-sketch of the candidate.

Nominations should clearly describe how the candidate meets the following selection criteria:

- The significance of the faculty member's research contributions to his/her discipline. Cite specific examples.
- Activities and widespread recognition of the faculty members research program and emerging leadership in the scientific community including:
 - Publication record
 - Invited presentations
 - Successful grantsmanship
 - Successful mentoring of graduate students and postdocs
 - Involvement of undergraduate students in the faculty member's research
 - Participation in professional organizations
- Demonstrated interpersonal skills that contribute to innovation in achieving departmental programs and goals.

Applications will be evaluated by the AgResearch Award Advisory Committee composed of two faculty (full professor rank), one at-large committee member, and an associate dean of AgResearch (Chair). The committee will recommend an honoree (if any) to the AgResearch dean and thereafter the UTIA SVC/SVP's Office. Previous recipients are not eligible for the award. This award will include a framed certificate, \$1,500 cash gift, and public recognition at the Institute of Agriculture Promotion and Recognition Luncheon held annually in late summer.

**UTIA AgResearch
Mid-Career Faculty Research Excellence Award**

The award will be presented to a mid-career faculty member who has between seven and fifteen years of professional experience beyond their terminal degree with a minimum of five years of service as a member of the agricultural faculty of the University of Tennessee. In addition, the faculty member must hold the rank of associate professor (for no less than one year) and have an AgResearch appointment. This award recognizes demonstrated commitment and meritorious achievement in research by faculty during the mid-stage of their academic career. Emphasis will be on the impact that a faculty member's efforts in research and technology development have had on UT AgResearch stakeholders or the science community at large. Emphasis will be placed on his/her accomplishments during the past five calendar years for consideration of this award. Both tenure and nontenure track faculty are eligible for the award.

Nominations are due the second Friday of May each year.

The nomination package should include the following:

- A two-page letter of nomination from the department head or the department Awards Committee.
- One to three letters from nominee's UT colleagues who are in a position to elaborate on the nominee's research/creative activity.
- One to three letters from experts in the nominee's field at other institutions who are knowledgeable about the nominee's work. Provide a short paragraph summarizing the qualifications of external references.
- Current CV of the candidate (no more than 25 pages) with a one-page summary of accomplishments.
- Short bio-sketch of the candidate.

Nominations should clearly describe how the candidate meets the following selection criteria:

- The significance of the faculty member's research contributions to his/her field(s). Cite specific examples.
- Activities and National/International recognition reflecting leadership in the scientific community including:
 - Research awards
 - Publication record
 - Invited presentations
 - Successful grant applications
 - Successful mentoring of graduate students and postdocs
 - Involvement of undergraduate students in the faculty member's research
 - Participation in professional organizations
- Implementation/adoption of research findings by stakeholders or the scientific community. Cite specific examples.

Applications will be evaluated by the AgResearch Award Advisory Committee composed of two faculty (full professor rank), one at-large committee member, and an associate dean of AgResearch (Chair). The committee will recommend an honoree (if any) to the AgResearch dean and thereafter the UTIA SVC/SVP's Office. Previous recipients are not eligible for the award. This award will include a framed certificate, \$3,000 cash gift, and public recognition at the Institute of Agriculture Promotion and Recognition Luncheon held annually in late summer.

**UTIA AgResearch
Research and Development Impact Award**

The award will be presented to a senior faculty member who has, in general, a minimum of fifteen years of service as a member of the agricultural faculty of The University of Tennessee. Exceptions for the fifteen-year service requirement may be granted for extraordinary faculty who have served at previous institution(s) and continue to demonstrate exemplary research excellence at UT. The faculty member must hold the rank of professor and have an AgResearch appointment. This award recognizes meritorious achievement in establishing a nationally/internationally recognized research program within their discipline. Emphasis will be on the impact that a faculty member's efforts in research and technology development have had on UT AgResearch stakeholders and/or the scientific community at-large. Both tenure and non-tenure track faculty are eligible for the award.

Nominations are due the second Friday of May each year.

The nomination package should include the following:

- A two-page letter of nomination from the department head or chair of the department Awards Committee.
- One to three letters from nominee's UT colleagues who are qualified to comment on the individual's research/creative activity.
- One to three letters from experts in the nominee's field at other institutions who are knowledgeable about the nominee's work. Provide a short paragraph summarizing the qualifications of external references.
- Current CV of the candidate (no more than thirty pages) with a two-page summary of key research program developments.
- Short bio-sketch of the candidate.

Nominations should clearly describe how the candidate meets the following selection criteria:

- The significance of the faculty member's research contributions to his/her discipline. Cite specific examples.
- Activities and widespread recognition of the faculty members research program and emerging leadership in the scientific community including:
 - Research awards
 - Publication record
 - Invited presentations at national and international events
 - Successful grantsmanship
 - Successful mentoring of graduate students and postdocs
 - Involvement of undergraduate students in the faculty member's research
 - Participation in professional organizations
- The implementation and adoption of new knowledge by stakeholders and/or the scientific community.

Applications will be evaluated by the AgResearch Award Advisory Committee composed of two faculty (full professor rank), one at-large committee member, and an associate dean of AgResearch (Chair). The committee will recommend an honoree (if any) to the AgResearch dean and thereafter the UTIA SVC/SVP's Office. Previous recipients are not eligible for the award. This award will include a framed certificate, \$5,000 cash gift, and public recognition at the Institute of Agriculture Promotion and Recognition Luncheon held annually in late summer.

UTIA AgResearch
Dean's Awards for Professional Staff Award

All regular full or part-time AgResearch appointed staff who have been in their current position continuously for a minimum of two years, by the nomination deadline date, are eligible for this award. This includes departmental, specialized center, and research and education center staff. Faculty, temporary employees, and student employees are ineligible for these awards.

Nominations are due the second Friday of May each year.

The Outstanding Professional Staff Award recognizes employees who demonstrate:

- Competence and critical thinking
- Cooperativeness and team building
- Professionalism and ethical behavior
- Initiative, adaptability, and dependability
- Clear communication skills

The UT AgResearch Dean's Awards for Outstanding Staff will be made annually in conjunction with the UTIA awards timetable and the UTIA awards and promotion luncheon. There will be a maximum of three awards conveyed each year with each recipient receiving a \$1,000 stipend. Employees may be nominated for the award multiple times. However, ten years must have elapsed after receiving the award before the employee may be nominated again.

Nominations will be solicited annually in conjunction with the UTIA awards timetable. Any UTIA regular employee can nominate an eligible staff member for these awards. Each nomination will contain one letter of nomination (three-page limit) and up to three letters of support (two-page limit each).
